 12+ Years Experience

About Prabhat Iron Works

Established in Jasdan, Gujarat, Prabhat Iron Works has been a pioneering force in agricultural machinery manufacturing for over 12 years. Our state-of-the-art facility at 14, Geeta Nagar, Atkot Road, produces high-quality decorticators, threshers, and separators trusted by farmers across 15+ states in India.

We combine traditional Indian engineering expertise with modern manufacturing techniques to deliver machinery that is reliable, efficient, and built to withstand the demanding conditions of Indian agriculture.

Our Mission

To empower Indian farmers with world-class agricultural machinery that maximizes productivity, minimizes waste, and delivers exceptional value. Every machine we build is a commitment to India's agricultural future.

Why Choose Us

✓ Premium MS & SS Materials

✓ Rigorous Load Testing

✓ All-India Service Network

✓ Custom Machine Configurations

✓ After-Sales Support

✓ Competitive Factory Pricing

Groundnut Decorticator

Heavy-duty Groundnut Decorticator designed for efficient shelling of groundnuts with minimal kernel breakage. Built with a robust mild steel body, this machine features precision-engineered rollers and adjustable clearance settings for different groundnut sizes. Ideal for medium to large-scale processing units, it ensures high throughput while maintaining excellent kernel quality.

Technical Specifications

Capacity	100 kg/hr
Power Required	5 HP Electric Motor
Body Material	Mild Steel (MS)
Drive System	Belt & Pulley Driven
Shelling Efficiency	95-98%
Kernel Breakage	< 3%
Weight	~180 kg
Dimensions (LxWxH)	1200 x 800 x 1400 mm
Voltage	220V / 440V
Usage	Commercial / Industrial

Key Features

- ✓ Precision-engineered concave & cylinder design
- ✓ Adjustable gap for different groundnut varieties
- ✓ Low kernel breakage rate (< 3%)
- ✓ Heavy-duty MS body for long life
- ✓ Easy maintenance & cleaning
- ✓ Built-in aspiration system for shell separation
- ✓ Suitable for Bold, Java, and Runner varieties

 Min Order: 1 Piece

 Delivery: 7-10 Business Days

 Made in Jasdan, Gujarat

Almond Decorticator

Specially designed Almond Decorticator featuring a rotating drum mechanism for gentle yet effective almond shell cracking. The machine preserves kernel integrity while achieving high throughput. Constructed with premium mild steel and precision bearings, it is engineered for continuous operation in commercial processing plants.

Technical Specifications

Capacity	50 kg/hr
Power Required	3 HP Electric Motor
Body Material	Mild Steel (MS)
Drive System	Gear Driven
Shelling Efficiency	92-96%
Kernel Integrity	> 95%
Weight	~150 kg
Dimensions (LxWxH)	1000 x 700 x 1200 mm
Voltage	220V Single Phase
Usage	Commercial / Small Scale

Key Features

- ✓ Rotating drum mechanism for gentle cracking
- ✓ Adjustable pressure settings for different almond sizes
- ✓ High kernel preservation rate (> 95%)
- ✓ Low power consumption
- ✓ Compact footprint for small spaces
- ✓ Easy feed hopper with flow control
- ✓ Minimal vibration during operation

 Min Order: 1 Piece

 Delivery: 7-10 Business Days

 Made in Jasdan, Gujarat

Groundnut Thresher Machine

Industrial-grade Groundnut Thresher Machine engineered for rapid separation of groundnut pods from vines. This high-capacity machine features a multi-fan cleaning system and a heavy-duty MS + Cast Iron frame for durability in demanding field conditions. The tractor-mountable design ensures mobility across farm locations.

Technical Specifications

Capacity	500 kg/hr
Power Required	10 HP (Tractor PTO / Motor)
Body Material	MS + Cast Iron Frame
Drive System	PTO / Belt Driven
Cleaning Fans	3 Stage
Threshing Efficiency	97-99%
Weight	~550 kg
Dimensions (LxWxH)	2400 x 1200 x 1800 mm
Mobility	Tractor Mountable / Wheeled
Usage	Farm / Industrial

Key Features

- ✓ High-speed threshing cylinder with rasp bars
- ✓ 3-stage cleaning fan system for clean output
- ✓ Tractor PTO compatible for field operation
- ✓ Heavy-duty wheeled chassis for mobility
- ✓ Large-capacity feed hopper
- ✓ Adjustable concave clearance
- ✓ Separate outlets for pods, vines, and debris
- ✓ Suitable for wet & dry groundnut vines

 Min Order: 1 Piece  Delivery: 10-15 Business Days  Made in Jasdan, Gujarat

Paddy Thresher (5-Fan)

Premium 5-Fan Paddy Thresher designed for efficient rice paddy threshing with multi-stage grain cleaning. The five-fan system ensures thorough separation of grain from chaff, straw, and dust. Built on a robust wheeled chassis for easy field transportation, this machine is the preferred choice for rice farmers across Gujarat.

Technical Specifications

Capacity	400 kg/hr
Power Required	10 HP Electric Motor / Tractor
Body Material	Mild Steel (MS) Body
Number of Fans	5 (Multi-Stage)
Drive System	Belt & Gear Driven
Threshing Efficiency	98-99%
Weight	~480 kg
Dimensions (LxWxH)	2200 x 1100 x 1600 mm
Mobility	Wheeled Chassis
Usage	Farm / Commercial

Key Features

- ✓ 5-fan multi-stage cleaning for superior grain quality
- ✓ High-speed threshing drum with spike teeth
- ✓ Wheeled chassis for easy field transportation
- ✓ Adjustable fan speed for different paddy varieties
- ✓ Low grain loss rate (< 1%)
- ✓ Large straw discharge outlet
- ✓ Compatible with Basmati, Sona Masuri, IR-36 varieties
- ✓ Rust-resistant epoxy-coated body

 Min Order: 1 Piece

 Delivery: 10-15 Business Days

 Made in Jasdan, Gujarat

Multi-Crop Thresher

Versatile Multi-Crop Thresher capable of processing wheat, paddy, soybean, sunflower, and other grain crops. This heavy-duty machine features interchangeable concaves and adjustable settings, making it the ultimate all-season investment for farmers handling multiple crop types throughout the year.

Technical Specifications

Capacity	600 kg/hr
Power Required	15 HP Motor / Tractor PTO
Body Material	Heavy-Duty MS
Compatible Crops	Wheat, Paddy, Soybean, Sunflower
Drive System	PTO / Belt Driven
Cleaning System	Multi-Fan + Sieve
Weight	~680 kg
Dimensions (LxWxH)	2800 x 1400 x 2000 mm
Mobility	Tractor Towable
Usage	Heavy Commercial / Farm

Key Features

- ✓ Interchangeable concaves for different crops
- ✓ All-season versatility — one machine, multiple crops
- ✓ Multi-fan + sieve cleaning system
- ✓ 15 HP heavy-duty motor compatible
- ✓ Tractor PTO and standalone electric operation
- ✓ Extra-large feed opening for bulk loading
- ✓ Robust frame for continuous heavy-duty use
- ✓ Separate grain, straw, and chaff outlets

 Min Order: 1 Piece  Delivery: 15-20 Business Days  Made in Jasdan, Gujarat

Garlic Separator Machine

Efficient Garlic Separator Machine designed for quick separation of garlic cloves from bulbs without damaging the skin. Featuring a gentle rubberized separation mechanism and stainless steel contact surfaces, this machine is ideal for food-grade processing. Compact and easy to operate, it is perfect for spice processing units and commercial kitchens.

Technical Specifications

Capacity	200 kg/hr
Power Required	3 HP Electric Motor
Body Material	SS + MS Hybrid
Contact Surface	Stainless Steel (Food Grade)
Drive System	Direct Drive Motor
Separation Rate	95%+
Weight	~100 kg
Dimensions (LxWxH)	800 x 600 x 1000 mm
Voltage	220V Single Phase
Usage	Commercial / Food Processing

Key Features

- ✓ Rubberized separation for zero clove damage
- ✓ Food-grade stainless steel contact surfaces
- ✓ Compact design for small spaces
- ✓ Low power consumption (3 HP)
- ✓ Easy disassembly for cleaning
- ✓ Adjustable speed for different garlic sizes
- ✓ Suitable for both fresh and dry garlic
- ✓ Single-phase power — no 3-phase needed

 Min Order: 1 Piece

 Delivery: 5-7 Business Days
